NFPA 99-2015 Health Care Facilities Code

Chapter 5 Gas and Vacuum Systems

5.1.14.2 Maintenance of Medical Gas, Vacuum, WAGD, and Medical Support Gas Systems.

5.1.14.2.2.5 Qualifications. Persons maintaining these systems shall be qualified to perform these operations. Appropriate qualification shall be demonstrated by any of the following:

- (1) A documented training program acceptable to the health care facility by which such persons are employed or contracted to work with specific equipment as installed in the facility. (*Facility Specific Training*)
- (2) Credentialing to the requirements of ASSE 6040, *Professional Qualification Standard for Medical Gas Maintenance Personnel*.
- (3) Credentialing to the requirements of ASSE 6030, *Professional Qualification Standard for Medical Gas Systems Verifiers*.

VPS, Inc. Instructors are *ASSE 6050 Medical Gas System Instructors* with years of experience performing Service, Maintenance & Installation of all major brands of Medical Gas & Vacuum Systems.

VPS, Inc. will come to your facility and train your personnel to perform Service & Maintenance on your equipment in accordance with manufacturers recommendations (**Hands On Training**).

VPS, Inc. provides a “*Certificate of Training*” for each individual’s file.
(Ready for review/inspection by AHCA & Joint Commission)

We can schedule training in short durations, small class sizes, at the time (s) and day (s) of your choosing.
